NHRTL-PAC Endorses Gordon Humphrey for Governor

The NHRTL Political Action Committee today announces the endorsement of Gordon Humphrey for Governor. "Gordon Humphrey has earned the PAC endorsement by conscientiously defending the babies and mothers for years," said NHRTL-PAC Chairman Ed Holdgate. "Genuine pro-life voters easily perceive the difference between Gordon Humphrey, who tenaciously defends innocent human life at every chance, and Craig Benson, who claims pro-life sentiments but has precious few pro-life credentials and even a record of gifts to pro-abortion Jeanne Shaheen," Holdgate said. "If the pro-lifers who recognize the difference will get involved and vote on September 10, more babies will be able to enjoy their God-given right to life."

The NHRTL-PAC is similarly pleased to support a pro-life slate of earnest and focused candidates. Dave Wheeler, Bob Boyce, Shelia Roberge, Russ Prescott and Jack Barnes have worked hard for the unborn. So too Gary Daniels, Andy Martel, and Jim Boynton, who are now seeking to serve in the NH Senate instead of the House. We are satisfied that Bea Francoeur will keep the best interests of the babies and their mothers in mind, so pro-lifers should seek out all these individuals to help with their campaigns.

Details and contact information for these selected candidates, as well as a Voter Guide showing survey returns and incumbent votes, appears on the NHRTL-PAC webpage at <http://www.nhrtl.org> under the NHRTL-PAC button.
